

# Data Science 210 Final Project

Thomas Kwashnak

Fall 2021

## **1 Background**

## **2 Design**

### **2.1 Data Importing**

Since the data was given in a string csv format, an additional pytohn script was created to import the data into two matrices, one contianing the inputs and one contianing the expected outputs.

## **3 Implementation**

## **4 Validation**

## **5 Reflection**
